

Bright Smile Cameroon

Accept warm regards from Bright Smile Cameroon,

On behalf of the organization, we wish to apologise for not giving prompt reports as requested. This was not done earlier because the schedule for our next board meeting falls in August.

Nevertheless, we are pleased to send you our reports including photos and of our activities. We are excited and can proudly say our organization has moved to another level with your help. We are fully equipped to reach children and communities with free dental care.

It has been a success though we still have some challenges with regards to funds to effectively run these programs. As far as lacking essential equipment, we still lack a scaling machine.

We have attached the logo of ADI on our website

The table shows areas we have covered recently.

Programs	Locations	Number of beneficiary
Community outreach	Baham	5003
School	G. S. Nkambe	670
School	St. Paul Primary School, Bamenda	555
3	3	6228

NB: 6228 people have benefit from one of our following activities;

1. Oral health education
2. Dental screening
3. Treatment
4. Donation of toothbrushes and paste.

Fobang MacMillan, MDS

Dental Hygienist,
Dir. Bright Smile Cameroon,
